Mr. Michael Jackson
BUREAU OF LAND MANAGEMENT
150 East 900 North Street
Richfield, Utah 84701

Dear Sir:

In regards to using dump site located in Georgia-Pacific Corporation's south quarry.

We haul between two and three loads per day, four or five days per week, approximately fifteen tons per load. We will maintain dump site and as is possible, we will cover with shale as the area permits.

We will haul only waste from plant, mostly gypsum board and waste paper. Most of this waste was mined in this area to start with. The remainder is mostly paper.

Yours truly,

Brent Bastian
Quarry Supt.

BB/lwb
